Hostel Rules and Regulations 2026–27

ODYSSEY INSTITUTE OF TECHNOLOGY (OIT)

Purpose and Scope

This document outlines the hostel rules and regulations of Odyssey Institute of Technology (OIT) for the academic year 2026–27. All hostel residents are expected to follow these guidelines to maintain a safe, disciplined, and comfortable residential environment. Students should contact the Hostel Administration Office for clarification on any rule.

1. Hostel Gate Timings

The hostel gate closes at 10:00 pm on weekdays and at 11:00 pm on Fridays and Saturdays.

Students must plan their daily activities and travel accordingly to return before the applicable closing time. Residents expecting an unavoidable delay should inform the hostel warden and follow the prescribed permission procedure.

Entry after gate-closing time may require authorization from the hostel administration. Repeated violations of hostel timings may result in disciplinary action.

2. Visitor Rules and Regulations

Visitors are allowed only in the visitors' lounge from 9 am to 7 pm, never in rooms.

All visitors must register at the security desk and provide the required identification details. Residents are responsible for ensuring that their guests comply with hostel security procedures and maintain appropriate conduct.

Visitors must leave the premises within the permitted hours. Students must not allow unauthorized individuals into residential rooms or restricted areas.

3. Hostel Wi-Fi and IT Support

Hostel Wi-Fi network is OIT-Hostel. For Wi-Fi problems call the IT helpdesk at extension 2200.

Students should report connectivity issues to the IT helpdesk and provide details of the problem. Residents must not tamper with network equipment, share unauthorized access credentials, or use the network for unlawful activities.

The internet facility should be used responsibly for academic work, research, communication, and other permitted purposes.

4. Cleanliness and Room Maintenance

Students must keep their rooms, corridors, washrooms, and shared facilities clean and hygienic. Waste should be disposed of in designated bins, and common areas must be kept free of personal belongings and obstructions.

Residents are responsible for the proper use of hostel furniture, electrical fittings, and other institutional property. Damage caused by negligence or deliberate misconduct may result in recovery charges or disciplinary action.

Maintenance problems should be reported promptly to the hostel warden or the designated maintenance office.

5. Safety, Security and Student Conduct

All residents must follow fire safety instructions, emergency procedures, and security notices issued by the institute. Emergency exits and passageways must remain unobstructed.

Students are expected to respect fellow residents, hostel staff, and institute property. Harassment, disruptive behavior, unauthorized activities, and possession of prohibited items may lead to disciplinary action under institutional rules.

Residents should secure their personal belongings and report suspicious activity or safety concerns to the hostel warden or security office.

6. Complaints and Administrative Support

Students may contact the hostel warden for assistance with room allocation, maintenance requests, visitor-related concerns, or other residential matters.

Complaints should clearly describe the issue and include relevant details to help the administration respond promptly. Residents are expected to cooperate with authorized staff during inspections, repairs, and safety checks.

7. Compliance with Hostel Rules

All hostel residents are responsible for reading, understanding, and following the rules stated in this document. The institute may issue additional instructions when necessary to maintain safety, discipline, and the effective operation of hostel facilities.

Repeated or serious violations may be referred to the appropriate institute authority for review and necessary action.

Hostel Administration Office, Admin Block
