Student Handbook 2026-27: Attendance, Exams and Grading

ODYSSEY INSTITUTE OF TECHNOLOGY (OIT)

Purpose and Scope

This handbook summarizes the Institute's attendance, examination and grading rules for the 2026-27 academic year. Students are responsible for understanding these requirements, monitoring their academic progress and checking official notices for any administrative updates. The rules below apply subject by subject unless an official notice states otherwise.

1. Attendance Requirements

Students need at least 75% attendance in each subject to sit the end-semester exam.

With a medical certificate submitted within 7 days of returning, the limit can go down to 65%. The Dean of Students approves it.

Students below 65% are detained and must repeat the subject.

Students should check their attendance records regularly and report discrepancies to the relevant department promptly. Medical documentation must be genuine and submitted within the stated period; submission does not itself guarantee approval.

2. Examination Schedule and Conduct

Mid-semester exams are held in September and February; end-semester exams in December and May.

Bring your student ID card and arrive 15 minutes early. Mobile phones are not allowed in the exam hall.

Students should also bring only permitted stationery and materials, follow invigilators' instructions, and remain seated until they are permitted to leave. Any suspected unfair practice may be referred for review under Institute procedures. Students should consult the official timetable for exact dates, venues and reporting instructions.

3. Grading and Passing

Grading uses a 10-point CGPA. The pass grade is 4.0 in each subject.

Students are encouraged to review marks and feedback when released and contact the appropriate academic department if they believe there is a clerical error. CGPA reflects academic performance across subjects; students should use their official grade report for the recorded result.

4. Re-Examination Applications

Re-exam fee is Rs 1,500 per subject. Apply within 10 days of results.

Applications should identify the subject and student details and follow the instructions issued with the result notice. Students should retain the payment receipt and application acknowledgement. Late or incomplete applications may not be processed.

5. Academic Support and Enquiries

For questions about attendance records, examination schedules, grading or re-examination applications, contact the Academic Office. Students should include their name, enrolment number, programme and subject details when making an enquiry, and allow reasonable time for the office to respond.

Academic Office: Admin Block, Room 104.

Students should rely on official OIT notices for individual examination dates and administrative instructions. This handbook is intended as a concise guide to the stated academic rules.
